

Are you tired of working with an advisor, coach or consultant where you typically:

- Wait months to attend a training course or strategy day?
- Attempt to fix symptoms of problems rather than the root cause?
- Get offered a prescriptive 'step-by-step' approach to strategy development?
- Receive no support in implementing a solution?

Discover an Evolution in Management Training and Strategic Support

Paul Hopwood Consulting has partnered with Mindshop to offer an EVOLUTION in the way strategy development and implementation support should be provided to business leaders in order to gain successful, long-term outcomes.

We now build in as *part of the way we do business* with every client the ability to:

ACQUIRE AND RETAIN NEW SKILLS RAPIDLY

Gain access instantly to unlimited use of nine online training courses in the areas of: business improvement, problem solving, continuous improvement, marketing and sales, personal improvement, sales performance, self confidence, leadership development and team development. These courses plus a wealth of other business tools are available to help you rapidly up skill in key learning areas.

GAIN IMPLEMENTATION SUPPORT

Dependent on the size of your issue and frequency to which you would like to work we could meet either weekly, monthly or quarterly to assist you in the successful implementation of your strategies. The real strength of our support is overcoming hurdles in the field and ensuring we customize our approach to suit your needs.

LEARN FROM LOCAL / GLOBAL BUSINESS LEADERS

Four times a year you will be invited to a special 4hr strategy day attended by fellow business leaders in the region called: Paul Hopwood Consulting Senior Management Network. Strategic Plans will be shared / refined, new business trends discussed and problems solved to help you stay ahead in business through this trusted community. You also have the ability to network with 650+ business leaders and advisors through the Mindshop global network.

WORK WITH A FACILITATOR NOT A CONSULTANT

We act as Facilitators not Consultants. Our aim is that when you leave the engagement you and your team have learnt strategic tools and methodologies which enable you to drive your own strategies and address problems rather than being reliant on a consultant for answers. A much more effective long-term solution.
